

## Stalin Greater Threat To Peace Than Hitler

OTTAWA, Feb. 17.—(CP)—Senator J. W. D. B. Farley (British Columbia) warned today that the "peace-loving" disarmament" and said Stalin now is a greater threat to world peace than was the Kaiser and Hitler.

He told the Senate that Russia's "bustle and bustle" in the past has frustrated the United States' "peace-loving" and "disarmament" and shaken the world's desire for peace.

Senator Farley, speaking in the resumed debate on the address in reply to the throne speech, said peace-loving democrats must arm themselves against the potential aggressor so well that Russia will not dare attack them.

One question for consideration was whether, when all other attempts had been made, the democracies should "get tough" with Russia. So far, that action had not been taken and it was not yet known whether a firm stand against the Soviet would provoke war or would ultimately prove the only way to avoid it.

THE DEMOCRACIES twice this century had preceded their while the enemy armed. This policy had led them "right up to the brink of disaster" and if the same thing happened again the democracies might not survive.

Outlining Russia's opposition to United Nations control of atomic energy, Senator Farley declared there is world control of the atomic bomb, there is a grave danger that Russia may use the bomb for the destruction of all other democracies which she believes without doubt are her enemies."

## Builders-Unions Hold Conference

CALGARY, Feb. 17.—(CP)—Members of the Calgary Builders' Association met Monday night with representatives of the United Brotherhood of Carpenters and Joiners (U.B.C.J.) and the International Building and Construction Workers (I.B.C.W.) to hear the views of the union on a contract proposed by the union.

O. J. Hurd, president of the exchange, revealed that the meeting had adjourned without a complete hearing of the briefs. A second meeting will be held shortly. Both unions are asking for a 30-cent-an-hour wage increase.

**Big Banking Firm In \$7,762,500 Suit**  
NEW YORK, Feb. 17.—(AP)—Kaiser-Frazer Corporation yesterday filed a \$7,762,500 suit against the Chevrolet banking firm of CIO and company. It charged that the firm had contracted to purchase 325,000 shares of the automobile company's common stock at \$11.50 a share.

The suit, filed in New York Supreme Court, asked payment of \$3,801,250 under the contract. It also asked damages of \$3,961,250, extending CIO's alleged fraud to terminate a contract for a like amount of stock.

At Cleveland yesterday, CIO and company said that refusal of Kaiser-Frazer directors to resign to the company treasury \$20,000,000 to purchase 100,000 shares of Kaiser-Frazer stock prior to the new offering was a "compelling factor" in the decision to withdraw from the underwriting.

**Bandit Got More Than He Looked For**  
DETROIT, Feb. 17.—(AP)—Pee are looking for a pie-faced bandit.

The man tried to snatch Mrs. Charlotte Clark's purse from under her left arm Sunday as she walked along a street. Mrs. Clark warned him with her right, in which she was carrying a pumpkin pie.

The bandit ran.

## Three Children Perish in Fire

OSHAWA, Ont., Feb. 17.—(CP)—The baby, who a childless couple Tony and Molly Mask, hoped to adopt, and three young sons, burned to death yesterday as the Mask's small frame house at Fairport Beach, 15 miles west of here.

The baby, Patricia Ann Adams, one, Alan Grosz, four, and Gloria Grosz, two, died when Mrs. Mask, 39, was killed, partially blinded in the bombing of London, tried frantically to escape the flames.

All three children, wards of the Children's Aid Society here, were sleeping when the fire broke out at 2:15 p.m. while Mrs. Mask was at a grocery store a few doors away.

Neighbors noticed the fire and attempted to force their way into the house, but were beaten back by the flames. They rushed to the grocery store where they found Mrs. Mask. She ran to the house and attempted to enter through the flames. She suffered severe burns and died before firemen and friends stopped her from making further attempts.

Firemen, who succeeded in putting the blaze out an hour after it broke out, found the three children huddled together in bed.

Shanghai. Their riot was a protest over a government order which will close the city's cabarets by the end of 1948.

**Prices Probe**  
(Continued from Page One)

evidence of price-fixing, hoarding or profiteering in vegetables and fruits during the last three months. The committee today is scheduled to begin a preliminary inquiry into vegetable and fruit prices, following charges made in Toronto by retailers that wholesalers are charging exorbitant prices.

Mr. McGregor, in reply to further questions by Mr. Fleming, said he had no evidence of profiteering in better or meat.

On the matter of meat, he said: "We have assembled a lot of information as to the practice of the head-butting industry both in western and eastern Canada."

Mr. Fleming asked that the information be made available to the committee when it deals with bread.

Mr. McGregor was reluctant to divulge information regarding specific commodities, stating that it might compromise some inquiries now under way.

"OUR PRACTICE is not to disclose information regarding our cases until they are complete," he said. However, he said he would be "very unhappy" if today's newspapers had not had withheld information from the public.

This reluctance on the part of Mr. McGregor brought Mr. Fleming into action.

"I don't want to embarrass the witness or his investigations, but we are in search of information," he said. "Mr. McGregor is one of two individuals who are most likely to have the information."

Mr. McGregor gave the information that he has information regarding all price-fixing or hoarding I do suggest he should give us that information from the public.

Hughes Cleaver (I.-Hulton) Interjected the suggestion that Mr. McGregor give the information at a private session.

Mr. Fleming opposed this and said the committee could be accused of the "greatest kind of discrimination" if it did sessions in private.

MR. FLEMING asked Mr. McGregor about milk and when the witness began slightly again, Mr. McGregor said:

"It is rather strange that parliament would set up a committee with unlimited power and yet we cannot get any facts from another department of government whose sole business is to get those facts."

Health Minister's committee chairman, entered the argument.

"We must get all the facts. Nothing must be withheld from this committee. That should be understood. It seems to me that the information is of a kind that Mr. McGregor may not find difficult to give. This question is such that one shouldn't feel any embarrassment to day after day."

**Scene of Wild Ride**

A huge, roaring snowslide swept three passenger cars off the rails of a Colorado mountain railway recently and carried them several hundred feet down the steep side of a canyon. The cars were just before plunging over the edge of a 100-foot deep gorge. Two of them are seen at the lower right; the other stopped higher up. This aerial picture makes it hard to believe that no one was killed or injured when the slide hit, but all the passengers were rescued. UNRECOVERABLE from "Hills."

## Adds Motherhood To Real Life Role

A second child—sixteen of as many years ago, Jane Withers, is expected to be married to her real life role. Mrs. Withers, 21, wife of Film Executive William Withers, said her baby is expected about the middle of September, just about a year after her marriage. Shirley Temple, 19, wife of Actor John Agar, became a mother early this month.

**Murder Suspects Held in London**  
By MICHAEL O'MARA  
LONDON, Feb. 17.—(CP)—Scotland Yard today took into custody a man and a woman living in a small boarding house in the Stockwell district south of the Thames and announced that the couple are being held for questioning in connection with the slaying last Friday of a young woman.

No charges were immediately laid against the couple, Douglas George Thomas, identified as an army deserter, and a woman named Mrs. Thomas. The woman's photograph had been widely circulated in the newspapers as wanted for questioning in the case.

Kilgar was shot to death in Southgate, a north London suburb where there has been a number of brutal shootings of a policeman in Britain since 1945.

The suspicions of the couple's landlady, Mrs. Edward Smeed, were drawn to the woman after she had seen the woman's photograph in a morning newspaper. She telephoned police and four officers burst through a bedroom door to find the woman lying on the floor.

He is known to have tried to resist his hand under a pillow, but was knocked over by a flying bottle. Mrs. Smeed described the pair, who had been in her house a fortnight and who she knew as Dan and Noreen Winkles, as "ideal lodgers." They kept regular hours and appeared "quiet and respectable."

"Whatever the cause... every effort designed to reach the necessary machinery for more effective consultation has failed."

"The longer we allow our efforts to be frustrated, the more we are likely to find that if British industry is not prepared immediately to co-operate in the use of machinery required to ensure full employment of British exports, then let those that are forward."

When the council is in session, he said, he was confident that it would be able to make the necessary machinery for more effective consultation has failed.

**W.S. to Extend Rent Controls**  
WASHINGTON, Feb. 17.—(AP)—The United States senate banking committee yesterday agreed to extend rent controls for 18 months if modified form. The new bill provides for rent controls where local laws are suffering losses.

The banking committee decided to recommend an emergency 30-day extension of existing law while it works out details of a longer run. The present law expires Feb. 28.

Both actions came within hours of a supreme court decision upholding the constitutionality of rent control laws. The law was a valid use of the war powers of congress.

**No Strike Threat**  
PITTSBURGH, Feb. 17.—(AP)—President Philip H. Love of the United Steelworkers of America (U.S.A.) yesterday promised negotiations with the steel industry in April would be conducted without the threat of a strike.

**Lottery Is Out**  
LONDON, Feb. 17.—(AP)—Sir Stafford Crippes turned down today last night on a £200,000,000 lottery to be run by the chancellor of the exchequer said that a British lottery would be of very doubtful value to the treasury.

**Former Manager Ogilvie Found Dead**  
MONTREAL, Feb. 17.—(CP)—Richard Ogilvie, 47, former president and general manager of the Montreal Canadiens, died Sunday after a long illness.

Born in Liverpool, England, he went to Winnipeg in 1941 where he joined the Ogilvie firm, later represented the company in England. He returned to Canada in 1944 and became connected with the Montreal Canadiens as an expert manager.

In 1948 he again went to Winnipeg as an assistant manager.

**Former Edmonton Woman Found Dead**  
EDMONTON, Alberta, Feb. 17.—(CP)—A post-mortem will be conducted on the body of Mrs. Dorothy Harris, wife of a Sussex timber merchant and a former resident of Edmonton, whose body was found Monday on her husband's estate after she had been missing for a day. Found in a culch of bracken, it bore no visible injuries.

**Landscape Artist Dies in Montreal**  
MONTREAL, Feb. 17.—(CP)—One of the outstanding landscape artists of the North American Continent, died in hospital here Friday night.

**Suspend Paper**  
BERLIN, Feb. 17.—(AP)—The British military government yesterday suspended for one month the Communist newspaper Freiheit (Liberty) of Düsseldorf. It said the paper regularly had violated military government orders against publishing material harmful to occupying forces.

**Nominate Tim Buck**  
TORONTO, Feb. 17.—(CP)—Tim Buck, national leader of the Labor Progressive party, was nominated last night as Labor Party candidate in the Toronto Tri-Party riding in the next federal election.

## Launch Mishap

At Least 15 U.S. Sailors Are Drowned  
HYERES, France, Feb. 17.—(AP)—At least 15 American sailors drowned early today in a launch accident which occurred while seamen of the United States aircraft carrier Midway were returning from a Riviera party ashore.

A Reuters News Agency dispatch from Marseille said that it was announced that six sailors were drowned and 12 were missing following sinking of the launch.

Agence France-Presse said 40 men were missing after the launch was wrecked.

Reuters News Agency, quoting a French newspaper, said that 45 sailors were believed to have drowned. Many others were injured. The agency said, and taken to hospital at Toulon.

Officers conducted a rail call aboard the Midway, which has a complement of 3,500 men, to determine how many are missing.

Accounts of the accident were not clear, but Agence France-Presse said the launch, carrying from 160 to 200 men, struck an obstruction and sank.

THE MEN were returning from a party on the island of Hyeres, off the Riviera. The Midway was en route to the island of Hyeres in the Hyeres group. The accident occurred at 1 a.m.

Eye-witnesses said rescue scenes were being carried out in the bay. The Midway was in the bay of Hyeres. The Midway was in the bay of Hyeres.

One account said many sailors lost their lives after diving overboard from the launch to lighten the load and help pumping operations to keep the ship afloat.

MANY SURVIVORS were more than a mile to shore. The Midway, which the United States has maintained in the Mediterranean for some time, was paying a courtesy call to the French Hyeres. Hyeres is east of Toulon. Small Hyeres islands are just south of here.

**Oil Gusher**  
NEW YORK, Feb. 17.—(AP)—An "oil gusher" roared up at midtown Manhattan just off Fifth Avenue yesterday. The gusher "came in" through an air vent pipe in a taxi truck was pumping oil into the tank basement storage tank through a sidewalk connection. Police used an air pocket apparatus to divert the fuel into the vent pipe.

## Planet "Near" Earth Tonight

## Astronomers to Seek Answer To Question of Life on Mars

FORT DAVIS, Tex., Feb. 17.—(AP)—Astronomers at McDonald Observatory hope to settle within the next 24 hours two key questions about the possibility of life on Mars.

The planet swings closer to

earth tonight 33,000,000 miles than it will be at any other time in the form of ice or water vapor, is present.

Two are the green areas obvious on Mars from ground or space, like our own, or are they some other vegetable form?

The astronomers not only hope to settle some of the intriguing questions about Mars, but they also want to know if the moon and Saturn through the observatory's 82-inch reflecting telescope.

Dr. Gerard P. Kuiper, observatory director, said it would "not be surprising" if the observations revealed the green areas of Mars to be a collection of lichens (non-plant) that can withstand "terrible cold and terrible periods of drought." Such plants grow on rocks of the western deserts.

Almost all the work done at McDonald's observatory is by photography. Very few observations are made directly with the eye of the telescope.

## A Prayer for Rain

With a prayer in his heart, Albert Garibaldi stands in his parched cabbage field to welcome the first drops of rain that would break the long winter drought that has crippled California agriculture, in the Colima Hills, near San Francisco.

## Statisticians Report Developments

## Youths Lead Crime in Britain

LONDON, Feb. 17.—(Reuters)—Britain's undermanned police forces, fighting an expected post-war crime wave, have found that youths under 25 are playing a big part in the increased housebreaking, theft and crimes of violence.

Government statisticians report published today, disclose the extent of the developments.

JUVENILES found guilty in the English courts in 1964 numbered 73,626, compared with a pre-war average of about 53,000.

Three types of offences increased out of all proportions to this general rise. There were approximately twice as many convictions for breaking and entering and for violence as before the war. And the number of sexual offences jumped 4 to 12.

In 1938, about one in every 15 persons convicted was a juvenile.

In 1963, youth rated almost one in every six.

The number of persons found guilty of indictable offences rose from 78,000 in 1938 to nearly 116,000 in 1963. Most alarming

increases were of breaking and entering, which almost doubled; sexual offences, up by more than 50 per cent; and violence against the person, up by 40 per cent.

THE LESS SERIOUS, non-indictable offences, declined considerably, particularly illegal gambling and drunkenness, but parents appear to have been more often in trouble for failing to send children to school and many more for truancy and running away from school without paying the proper fees.

The drop in drunkenness has been helped, not fully accounted for, by cuts in the supply of spirits now that Britain is exporting a substantial proportion of the output.

British drank 8,000,000 proof gallons of spirits in 1960, compared with 10,000,000 annually before the war. Their consumption at 31,000,000 bulk barrels was 20 per cent up on pre-war average. But it was not the same beer.

THE POLICE FORCE dealing with the crime wave in England and Wales numbered 31,000 in 1964, more than 10,000 less than in 1938 and nearly 14,000 short of authorized establishment.

Average prison population increased from 10,328 in 1938 to 14,708 in 1963.

## Says Opposition At "All-Time Low"

WINNIPEG, Feb. 17.—(CP)—Premier Stuart Gordon last night said that since the 1945 election the C.P. group in the Manitoba legislature "had brought opposition to an all-time low in the provincial house."

Replying to C.C.P. Leader E. A. Hanford's vote of non-confidence motion, Mr. Gordon said the opposition had been "ridiculously inept" and "utterly irresponsible."

In his throne speech amendment, said the premier, Mr. Hanford had made a number of "very serious" charges against the government but had made no attempt whatever to support these charges with fact.

As a prelude to his remarks on Mr. Hanford's general criticism of the throne speech, Premier Gordon stated:

"... We have to put up with misgivings of honourable gentlemen whose leader will not even listen to the speech, let alone read it, before getting up to misrepresent its contents."

Dealing with Mr. Hanford's criticism Friday of the University of Manitoba Board of Governors, and the recent resignation of Dr. W. Truman as president of the university, Premier Gordon said:

"... He indicts certain unnamed members of this body for offences which are also unnamed, and by doing so leaves every member of the board under whatever cloud may result from such an irresponsible attack."

Then, after refusing to disclose whom or what he is referring to, he stated that the government knew all about it. Can any ill-impudence go any further than this?

## Tilley Appointed Managing Editor

HALIFAX, Feb. 17.—(CP)—B. Pearson McCurdy, vice-president and general manager of the Chronicle Company, Limited, last night announced the appointment of S. Leonard Tilley of Halifax, N.S., as managing editor of the Halifax Daily Star.

Mr. McCurdy said Bertie E. Robinson would continue as editor-in-chief of the Halifax Chronicle and the Star.

A son of the late Hon. L. P. D. Tilley, longtime premier of New Brunswick, he began his newspaper career on Lord Beaverbrook's Daily Express in London and also has served on the Toronto Mail and Empire, transferring to the Globe and Mail with amalgamation of the two Toronto morning newspapers.

## McKernan League Plans for Carnival

Final plans for the banner carnival to be held February 28 will be discussed tonight at a meeting of the McKernan District Community League.

The meeting will get underway at 8:15 in Community Hall, 144th street and 17 avenue.

Embassy Protest

OTTAWA, Feb. 17.—(Reuters)—The British embassy in the Canadian capital in Prague protested yesterday against the closing by a state official of the Prague offices of the Canadian Enterprise Company, representing the Anglo-Canadian Bata footwear organization. The company, which it was alleged had not been licensed, is separate from the nationalized Czech Bata concern.

## ADDITIONAL SPORTS

## Russia Joins Skating Union

DAYTON, Switzerland, Feb. 17.—(CP)—Russia has joined the International Skating Union and will participate in future international competitions, it was reported last night by a reliable authority.

Membership of the I.S.U. now is 30 countries, including Canada. The source told The Canadian Press in an interview that Russia joined the union Jan. 28, two days before the Olympic Games there.

Soviet "observers" looked over the speed-skating contests, but Russian athletes could not compete as there is no Olympic committee in Russia, a necessary condition for participation in the game.

SANGSTER retained his unbeaten record with a 12-0 win over Fred Steele of Winnipeg. Two other skaters previously defeated, George Hindle and Billy McLeod, both of Winnipeg, lost their matches in the championship draw.

McLeod losing 10-0 to Winnipeg's Ken Watson and Hindle dropping an 8-7 match to H. Doug of Winnipeg.

Jimmy Welch, 47, Dominion champion, won his game against Bruce Cartmill of Glenora, Man., 7-4.

## Gunner Aasen 3rd At Banff Ski Meet

BANFF, Alta., Feb. 17.—(CP)—Gordon Cowan of Vancouver and two Banff skiers won the Rocky Mountain ski championship held at Banff during the weekend.

Cowan gave a polished performance in the downhill race to take the downhill title with a fast time of 52.65 seconds, despite a snowstorm. Eddie Hunter and Earl Platch, both of Banff, took the slalom and jumping championships, respectively.

Platch took the jumping championship with a leap of 179 and 177 feet. Art Johnson of the Southwestern Skating Club of Vancouver was second with jumps of 179 and 180 and Arthur Aasen of Vancouver, Alta., third with jumps of 166 and 154.

## Sons Take Second Playoff Victory

MEDICINE HAT, Alta., Feb. 17.—(CP)—Leithridge Native Sons, a standstill on the Southern Alberta Junior Hockey League final playoffs last night as they whipped Calgary Buffaloes 5-4 for their second-straight victory in the best-of-seven finals.

Third game of the series will be played in Calgary on Wednesday night.

Rauschen and Doroshenko led the Leithridge attack in the fast, hard-checking contest. The former netted three goals and assisted on four, while Doroshenko participated in all five counters, scoring one and passing for the other four. Milford scored the other goal.

Both Calgary tallies came in the final stanza with Butler getting the first and Robinson the second.

## One Up, One Down

LONDON, Feb. 17.—(AP)—The Montreal radio said today Alexei Kovalev, a vice-chairman of the Soviet Council of Ministers, has been named minister of Finance by the president of the Supreme Soviet. He succeeds Anatoly Gerasimov, who has been down to the post of first deputy minister.

## NEW RUNNERLESS STRAWBERRY

BAKON SCHLAEGER, Producer of the latest in strawberry growing, has developed a new variety of runnerless strawberry. The new variety is called "New Runnerless Strawberry" and is a true strawberry. It is a true strawberry, not a hybrid. It is a true strawberry, not a hybrid. It is a true strawberry, not a hybrid.

Here is a RECORD that speaks for itself

Nearly one-seventh of all the life insurance bought in Canada is purchased through the London Life.

This fact shows how generally Canadians are using the facilities of the London Life in the vitally important matter of providing funds for the future of themselves and their families.

- Low cost insurance
- Service by high calibre, well-trained representatives
- Financial strength

These factors largely account for the volume of life insurance being purchased from this Company.

London Life Insurance Company

Free-For-All This Year

## Term 'Big Four' Fades In Manitoba Bonspiel

WINNIPEG, Feb. 17.—(CP)—When Manitoba's Diamond Jubilee Bonspiel opened its second week here yesterday, competitors and spectators alike were willing to concede that the term "big four" could safely be dropped from the "spiel's" dictionary.

It might be partly the result of the large entry—454 risks are competing to make the "spiel" the biggest in the world—or it might be that the skill of curlers generally is improving.

Whatever the reason, the belief was that anybody could win—and that didn't necessarily mean a "fame curler".

During the first week of the competition unknown risks showed the way, with the established quartette dropping games which in previous years they would have taken as a matter of course.

Today only one risk remained undefeated.

The reason for the free-for-all this year, is the opinion of both Welsh and Watson, is that the call of curling in the bonspiel has reached an extremely keen stage.

### Hutton Advances In South 'Spiel'

LETHBRIDGE, Feb. 17.—(CP)—The Jack Hutton risk of Calgary won games in both the Lethbridge and Galt Company events yesterday as the sixth annual steel above bonspiel began. The events are the two primary competitions.

Last year's grand aggregate winner, the K. Brown quartet from Lethbridge, was victorious in both primaries. L. Malloin, Fernie, B.C. risk, winner of the Lethbridge trophy last season, split two games, winning in the Herald competition and dropping an 87 decision in the Galt company event later.

### Jaw Jolt

Vito Merza scores with a stinging right to Tony Maloran's jaw in winning a decision and the amateur bantam title in Cleveland Arena. He was the fivefight champion a year ago.

## Gain North Final Beating Leafs 7-5

Lacombe players advanced to the final of the Northern Alberta Juvenile playdowns last night when they upset Edmonton Maple Leafs 7-5 in the second of a two-game home-and-home total-goal series before about 1,200 fans at the Edmonton arena.

The smooth-functioning Lacombe sextet qualified for the final berth by out-scoring the Edmontonians in the first encounter last Saturday. Lacombe edged out a narrow 7-6 verdict on their own "stamping grounds".

TWO THREE-GOAL punches in each of the first two stanzas, while leading Leafs to a pair of goals, kept the Lacombe triumph last night. Leafs turned on the steam in a "do or die" effort in the final period after a little better than 12 minutes of play, they were unable to beat the nimble Allan Cullen, Lacombe custodian.

C. A. WHITE turned in a sparkling performance for the winners, denting the hemp for a trio of minutes. Cullen, when he was not being Fred Kirk, Don Prizell, Don Hayworth and Norm Lund.

Leafs' last-minute comeback was not enough to overcome the momentum of the Lacombe team, which was led by the "hot" risk, who Carnegie called out and set up three others. Bob Hock, who completed scoring for Leafs on a solo dash.

THE MATCH was played before the Regina-Flyer 111, and some 1,200 rabid fans stayed over to watch the two-way struggle.

Flashing net combination plays, the visitors scored during a 20 lead midway through the top period, while the Lacombe team scored three goals in the second stanza.

**Lloyd Mangrum Shatters Par To Cop Playoff**

HARLINGEN, Tex., Feb. 17.—(AP)—Lloyd Mangrum's playoff victory in the 130,000 Lower Rio Grande Valley open golf tournament yesterday put the Chicanero out in front among the winter circuit money players.

Mangrum, who fired a first-round 35-40 in the playoff with Jimmy Demaret, Ojai, Calif., took top prize of \$2,000 to raise his earnings to \$8,318.

DEMARET WON \$1,000, bringing his winnings to \$7,485, second only to Mangrum. Demaret shot a 34-38-60.

Mangrum and Demaret battled to a tie for first place Sunday over the 600-yard Municipal course here. Each rung up scores of 308, 15 strokes below par for the distance.

THE TOURNAMENT was marked by a fist fight between Henry Hanson of Ravenna, Ill., and N. G. Von Nida, Sydney, Australia, and the resignation of Lawson Little, Cleveland, as chairman of the rules committee.

Little quit, he said, because recommendations by his committee for disqualification of certain players were not followed.

Hanson and Von Nida came to blows in an argument over a rule.

**THE THINGS OTHER GIRLS DREAM ABOUT... HAPPEN TO HER!**

ENGLAND was all out in the second innings for 275 runs and the West Indies, set the impossible task of getting 141 in 27 minutes for victory, had made 72 for three wickets, when slump was draped.

The final scores were: England 362 and 275; West Indies 487 and 77 for three.

Robertson saw eight batsmen go before he was caught out mid on. His solid innings of 135, including 15 fours, was made in 34 minutes.

W. Ferguson, with his brilliant leg spinners, earned six England wickets for 40 runs, which gave him altogether 11 for 220.

**ROBERTSON SAVES English Eleven**

POINT OF SPAIN, Trinidad, Feb. 17.—(Reuters)—Jack Robertson, Middlesex opening batsman, by hitting his first test century and too his first three-figure score of the tour yesterday, was almost solely responsible for England saving the second test match against the West Indies here. England won by a draw, after a day of fluctuating fortunes.

ENGLAND was all out in the second innings for 275 runs and the West Indies, set the impossible task of getting 141 in 27 minutes for victory, had made 72 for three wickets, when slump was draped.

## Dominion Has Large Staff For Service

Associated with the owners and officials of Dominion Motors is a widely-experienced staff, efficiently organized to care for the needs of the motoring public from simple gasoline and oil requirements to major overhaul jobs.

AIDED BY the modern plant of the firm, its time-saving, thorough equipment, the staff will be well able to handle the needs of an unlimited number of patrons, from casual motorists to regular customers and day-and-night truck operators. The new building of the company gives ample space for servicing of all types and a tremendous parts distribution staff.

Heading the competent staff will be such men as Arnie Johansson, sales manager; Stan Reeves, service manager; Harvey Talbot, car division foreman; W. L. Perrin, truck service division foreman; Jack Sharp, parts department manager; and Tom Blythe, office and credit manager.

Seeling with Mr. Johansson will be Eugene P. McCall and Douglas Wood. All three are eager to discuss with motorists and truckers their problems in obtaining vehicles and although handicapped by an amount of equipment for the present demand, they will do all they can to expedite deliveries of models available.

**SERVICE MANAGER** Stan Reeves took over his work with Dominion Motors just over a year ago. During the year he was employed right in the heart of the Motor Company of Canada plant at Windsor, helping to conduct service schools at which mechanics were trained for the Canadian Army.

With this thorough background of Ford company training, he is well qualified to direct the service facilities of Dominion Motors where Ford and Monarch cars, trucks and tractors will be sold.

Supporting Mr. Reeves in the service end of the business will be a staff of 35 skilled mechanics. With the modern equipment available in the new plant, these men will be able to give service equal to any in the country.

**FOREMAN** of the car division of Dominion Motors, Mr. Talbot has been connected with the automotive repair business for 23 years. He has been with Dominion Motors for the past 13 years, starting as a mechanic and working his way up to foreman by 1941.

Mr. Perrin came to Edmonton from Ontario in 1933, joining Dominion Motors that year and becoming shop foreman in 1935. He then entered the automotive business in Flint, Mich., in 1919.

Both he and Mr. Talbot, as heads of the car and truck divisions of the firm, are particularly satisfied with the arrangements provided in the new plant. The servicing department for passenger cars and trucks have become separate entities at the new Dominion Motors, allowing each division special services of its own.

Dominion Motors has become the only garage in Edmonton to allocate a special department for truck servicing alone. As a result, truck drivers will find that at the new plant their needs will be given separate and special attention, something most truckers have been hoping to see for years.

Highly electrically-operated doors to the truck and car divisions of the plant provide for easy entry and exit. The space provided in each department gives ample "show room" for moving cars and trucks from one service or repair job to another.

**THE OPENING** of the new plant also means good news for tractor owners and operators. Top-flight service for these machines now can be given in the truck division by experienced mechanics under the direction of Mr. Perrin.

Parts department manager Jack Sharp can lay claim to having seen

## President

FRED CHORLEY

longer service with the firm than any other employee. He joined Dominion Motors in the year it was formed, 1932. Mr. Sharp is a veteran of the First Great War with overseas service in France. He came to Edmonton after demobilization.

Mr. Blythe joined Dominion Motors as a bookkeeper in 1940, soon was promoted to office and credit manager, the position he now occupies. Born in Edmonton, he worked as a bank teller and accountant for another automotive firm before joining Dominion Motors. Working under his direction is a staff of five competent office employees.

## Modern Every Way Plant Will Give Best in Service

The huge new plant at Jasper avenue and 107 street was designed with one main thing in mind: to provide the motoring public the best possible service using the most modern automotive equipment available.

**AN INSPECTION** trip through the new building, being officially opened to the public Wednesday, Thursday, Friday and Saturday of this week, will reveal that fact throughout the entire examination of the building. Everything inside the sweepingly-designed building points to efficient service, given quickly and expertly.

There was no premium on space in design and actual construction of the building. The cramped quarters of old-style garage buildings has been replaced at Dominion Motors by provision of ample space for every job to be accomplished in the plant right from the front showroom to the special truck and car service divisions.

There is nearly 40,000 square feet of floor space in the modern building, including a main floor and sub-basement. The main floor with a total of 38,800 square feet measures 212 feet by 150 feet. The sub-basement, entered through hydraulically-controlled doors with special safety features, measures 33 by 150 feet, the size of a large city lot in itself.

**LOCATION** OF the gasoline pumps and oil service facilities at the front of the new building have been set on the wide terrace to provide the easiest and most convenient approach and exit by drivers. Quick service workers using rapid-flow pumps, will check gas, oil and batteries on vehicles with a minimum of delay. Cars and trucks can drive into the main terrace approach either from Jasper avenue or 107 street.

The main showroom, which can accommodate the largest Ford and Monarch equipment handled by the firm, is finished in attractive and eye-pleasing color tones. Comfortable chrome and leather chairs and tables are spaced in the showroom for the convenience of visitors.

Special lighting facilities will help to show off vehicles on display so that through the large ground-to-ceiling windows, new models can be easily seen from the street.

**Immediately** at the rear of the showroom are offices of the firm. **THE EASY ENTRY** and exit facilities incorporated at the front of

## Plant Up-to-Date In Every Detail

Major milestone in the rapidly-expanding history of Edmonton and northern Alberta automobile dealers and garages is being marked this week with the formal opening of the new plant of Dominion Motors Limited.

**THOUSANDS OF CITIZENS** and Edmonton visitors have been watching with interest the progress of construction of the new premises of the long-established firm, since that time, the new Edmonton home of Ford and Monarch cars, trucks and tractors has grown from what was a lone corner service station garage to one of the largest and most modern downtown Edmonton plants.

The plant is located on the south side of Jasper avenue at 107 street, and will become one of the largest and most modern such plants in Canada.

The official opening of the new premises will take place over a period of four days—starting Wednesday and continuing through Thursday, Friday and Saturday.

**INTERESTED** Edmonton and district citizens during that period will find ample opportunity to visit the new plant and examine its modern servicing and work facilities in detail.

The new plant will be of particular interest to all those motorists and truckers who watch new developments in servicing and repairs. The plant not only embodies an ultra-modern exterior appearance, but equipment inside it is most up-to-date obtainable.

The sweeping lines of the building also have been carried through to the repair departments of the building. These have been expertly situated and arranged, to provide for an uninterrupted flow of traffic coming into the departments for work.

The concrete floors, painted tops and benches throughout the two repair departments will provide constantly clean and airy quarters, not only for the men working on machines but for the public delivering and picking up their vehicles.

Texaco lubricating products will be used exclusively throughout the departments.

Air conditioning and skylight-lighting throughout the garage portions of the building greatly improve the working conditions for the mechanics. Employees also will have the added facilities of a modern washroom and restroom, complete with tables, easy chairs and other conveniences.

Today, there is no trace of the

ing have given Edmonton's main thoroughfare a more modern appearance. Under the floodlighted Ford and Monarch signs, the conveniently-located gasoline and oil service pumps stand in front of a floor-to-ceiling show window, where the latest models of the lines handled by the firm will be on display.

The entire front of the building and showroom will be bathed in light during evening hours. The immense showroom is large enough to hold several of the largest trucks and cars at one time. Viewed off from the showroom is a sweeping counter over which the prompt and efficient parts service of the company will be conducted.

**ONE ENTIRE SIDE** of the building, facing on 107 street, is made up of a series of huge electrically-operated doors through which cars will enter for service and repairs.

Although it has brought Edmonton its most modern automobile premises, the firm of Dominion Motors Limited traces its past in the city industry back to 1927.

For many years, the firm conducted one of the largest automobile businesses in the west in a large building on 107 street, south of Jasper ave. In 1941, this building was turned over to the United States Army. The firm moved into quarters at the same location as the present new plant.

Recognizing the need for vast expanded facilities to keep up with its business, the firm soon started plans which since have resulted in the present building. Actual work was started on the new plant in July, 1946, after adjoining property had been secured.

**FIRST WORK DONE** on the new plant took place on this adjoining property. As that needed completion, construction work spread to the old building. It was at this time a unique phase in new construction occurred. Although the former building of the firm has been completely "swallowed" up by the new and larger building, the regular day-out service and repair departments moved back, stock and barrel from one end to another.

But, in the words of one official, "These days of constantly shifting and moving are over. Now we have the space and facilities to give the kind of top-flight service we have been wanting to give for years."

Today, there is no trace of the

## OPEN BUILDING.

### Ultra-Modern Dominion Motors Interior

Above is the beautiful interior of the spacious Dominion Motors Limited showroom for the display of Ford and Monarch automobiles. Constructed in ultra-modern manner, the ceiling is of acoustic tiling and fluorescent lighting is installed throughout. The

flooring is of the finest quality terrazzo. The huge curved windows are a novel feature, each equipped with special heating units to eliminate frosting. In the background are seen the sales office and information booth.

### Company Fast Gained Prominence

## GROWTH REVEALS PACE OF INDUSTRY

The development of Dominion Motors Limited and the lives of its two proprietors reflects the amazing growth of the automobile industry, not only in the west but throughout Canada.

**BOTH FRED CHORLEY**, president of the firm, and Alex Cunningham, general manager, early became linked with the automotive trade. That link has never been broken and these two Edmonton citizens now find themselves guiding the activities of one of the largest automotive businesses in the west. The new plant of the firm is being formally opened Wednesday.

Former "corner service station" remaining. As the old building gradually and well-by disappeared from public view, the larger, sweeping lines of the new structure developed.

During the changeover period, car and truck repairing often was continued in cramped quarters, the parts department moved back, stock and barrel from one end to another.

But, in the words of one official, "These days of constantly shifting and moving are over. Now we have the space and facilities to give the kind of top-flight service we have been wanting to give for years."

It was in 1930 that Mr. Chorley became associated with the Ford company at Winnipeg as assistant branch manager. After a short period as manager of the dealership of the automobile in Brandon, he went to Calgary to become manager of Universal Motors.

Edmonton first attracted Mr. Chorley in 1935, when he acquired an interest in Dominion Motors. Since coming to this city he has extended not only his business interests but those in the civic life of the city. Active in the Edmonton Chamber of Commerce and the Federation of Automobile Dealers' Canada, he also is a past president of the Edmonton Kiwanis Club and a member of the Edmonton Club and Mayfair Golf and Country Club.

As president and co-owner of the company, he is finding real pleasure in the fact that he helped guide it to a point where today the firm can offer unsurpassed services to the motoring public from a plant modern in both appearance and equipment.

The general manager, Mr. Cunningham, joined the Ford company six years after Mr. Chorley. Mr. Cunningham had come to Canada from his birthplace in Scotland and, after finishing his schooling in Calgary, joined the company in that city in 1916.

**BUT HIS SERVICE** with the Ford company was soon to be interrupted. That same year, he enlisted in the Royal Flying Corps and saw service overseas for 2½ years. By 1919 he was back with the Ford Company in Calgary.

In the following years, he was promoted from one position with the company to another until by 1938 he had become assistant branch manager for the company's operations throughout the province. In the same year, he came to Edmonton to become assistant general manager of Dominion Motors.

Another war was to interrupt Mr. Cunningham's active connection with the automotive industry. Two years after the last war started, he went to Aircraft Repair, remaining with that wartime organization until 1944 when he returned to Dominion Motors as an ownership partner, vice-president and general manager.

With Mr. Chorley, Mr. Cunningham has been active in both the Kiwanis Club and the Mayfair Golf and Country Club. He is a member of the board of governors of the golf club. He is also president of the Edmonton Burns Club and is on the board of stewards of Robertson United Church. Active membership in the Chamber of Commerce and the Edmonton Club rounds out his interest in civic affairs.

## on the opening of fine new premises

• We take pride in congratulating this progressive dealer on the new premises and splendid facilities which assure the most efficient service to Ford and Monarch owners, and to other car and truck owners as well.

We know that this forward-looking dealer is proud of the Ford and Monarch franchise. We know, too, that with modern facilities and equipment, this organization is well prepared to serve the automotive transportation needs of the community.

## FORD AND MONARCH DIVISION

FORD MOTOR COMPANY OF CANADA, LIMITED

*Dominion Motors Limited take pleasure in announcing*

# *The Grand Public Opening*

OF EDMONTON'S NEW HOME FOR  
**FORD -- MONARCH -- CARS AND TRUCKS**

**T**omorrow at 10 a.m. the doors officially open on Edmonton's new home for Ford and Monarch cars and trucks. Long associated with the business life of Edmonton, being the city's oldest established automobile dealers, Dominion Motors Limited are proud to add to the growing list of fine Edmonton buildings, this modern structure that embraces skillful design for utility and beauty. We are also proud that this new automotive service centre is one of Western Canada's largest—the greatest service space in Edmonton, with over 39,750 square feet. It is a genuine pleasure to be afforded this opportunity of showing our faith in the great future of this city. This forward step is the result of the patronage which has been afforded to us by the people of this district. We know a visit to the new Dominion Motors Limited will prove of genuine interest. Therefore we cordially invite everyone to call in and inspect these new premises during the four day opening.

## NEW FEATURES

A new feature of Dominion Motors Limited, the first of its kind, is the separation of passenger car and truck servicing. The truck service division is a complete unit of its own—specially trained staff—over-size electrically operated doors—and the special equipment to handle heavy trucks. The passenger car service division provides a specialized service with ample manoeuvring space—through traffic features and increased safety factors. New air conditioning—new exhaust fume removers—all contribute to assuring a clean atmosphere motorists will appreciate.

THIS Beautiful MONARCH CAR  
WILL BE  
*Given Away Free*

## Judge Dismisses Claim for Coat

**CALGARY, Feb. 17 (CP)—** Judge L. H. Stark yesterday dismissed a claim of a Calgary store on a Northern Alberta business man with the comment that "he did not think that the acquisition of the husband and wife or the society of company they happen to meet in domestic life is a wife's matter."

The store claimed \$200 against the man, which was the price of a fur coat bought by his estranged wife in December, 1936. The woman claimed that it was necessary to have the fur coat due to the social position of her husband and herself.

The judge said there was no evidence to show that the store had made a profit from the sale of the coat, and that the first claimant had made an investigation into the relationship of the couple.

**TO SAVE THE CHILDREN OF OUR WORLD...**

**As representatives of Canadian workers, we know that saving the lives, minds and bodies of the world's children is the most important task facing our world today.**

Most of the members of Canadian unions have children of their own. We know that a large proportion of the world's children who are hungry, ragged and homeless, growing up bitter and suspicious, are the children of workers. We know they must have food, clothing and education if we are to assure a healthy peaceful world for OUR children.

**CANADIAN APPEAL FOR CHILDREN** has given all of us the opportunity to share in this vital work. Its importance is so apparent that we are assured of the full support of Canadian workers. We are asking the members of our organizations to pledge one day's pay to the Canadian Appeal for Children.

Labour is solidly behind this appeal—an appeal upon which the future of the world depends.

**TRY THIS TONIGHT!**  
Life is much brighter if you can start the day with a smile. If you are tired and listless, why not do as thousands today are doing—just drink a cup of Ovaltine before each night.

For Ovaltine acts in three ways, to help make you start and glad to be alive.

First, taken warm at bedtime, it fosters sound, refreshing sleep, without drugs.

Second, it supplies essential food elements and a natural sleep-inducing substance.

Third, it also furnishes important vitamins and minerals in a delicious, mellow natural way that is good for you.

So why not try Ovaltine beginning with this one cup of it to see how it feels in the morning.

**Ovaltine**

## Your Baby and Mine

**By Myrtle Meyer Eldred**  
We all have our own peculiar reaction toward subjects under discussion. Some persons dislike to hear others on consumption of nursing. Others grow squeamish when sex is under discussion. At least, that is the reaction of some people.

But Mrs. A. S. wants me to talk about babies as they effect child life. The young mother is a mother for a two-year-old boy to have healthy and big for his age. Lately he seems restless, mostly at night, and jumps and squirms in bed for the reason as if it itched. Any advice would be greatly appreciated.

## Why Grow Old?

**By William E. McKenney**  
In our modern age there is a real problem in the handling of a child in which you are "valued" and the opposite is true in today's age. The child is "valued" rather than the parent, the parent is "valued" rather than the child. Therefore, the expert authorities have been called in to help. The child is "valued" rather than the parent, the parent is "valued" rather than the child. Therefore, the expert authorities have been called in to help.

**TO SAVE THE CHILDREN OF OUR WORLD...**

**As representatives of Canadian workers, we know that saving the lives, minds and bodies of the world's children is the most important task facing our world today.**

Most of the members of Canadian unions have children of their own. We know that a large proportion of the world's children who are hungry, ragged and homeless, growing up bitter and suspicious, are the children of workers. We know they must have food, clothing and education if we are to assure a healthy peaceful world for OUR children.

**CANADIAN APPEAL FOR CHILDREN** has given all of us the opportunity to share in this vital work. Its importance is so apparent that we are assured of the full support of Canadian workers. We are asking the members of our organizations to pledge one day's pay to the Canadian Appeal for Children.

Labour is solidly behind this appeal—an appeal upon which the future of the world depends.

Life is much brighter if you can start the day with a smile. If you are tired and listless, why not do as thousands today are doing—just drink a cup of Ovaltine before each night.

For Ovaltine acts in three ways, to help make you start and glad to be alive.

First, taken warm at bedtime, it fosters sound, refreshing sleep, without drugs.

Second, it supplies essential food elements and a natural sleep-inducing substance.

Third, it also furnishes important vitamins and minerals in a delicious, mellow natural way that is good for you.

So why not try Ovaltine beginning with this one cup of it to see how it feels in the morning.

## Plan Big Increase Of Cotton Exports

MANCHESTER, England, Feb. 17.—(Reuters)—Plans to increase Lancashire's textile export to Canada this year to 100,000,000 yards of cloth—40 times last year's level—were disclosed yesterday by Sir Raymond Streat, chairman of the Lancashire Cotton Corporation.

The increase in exports is part of a larger plan to boost the textile industry in Lancashire. It is expected to create many new jobs in the region.

## Face Higher Rents Or Quit Business

MANCHESTER, Feb. 17.—(CP)—Many of the city's small merchants face the alternative of either going out of business or paying rent increases from 100 to 400 per cent when the government lifts controls on commercial property, March 1, the Gazette reported in a survey yesterday.

Although scores of smaller merchants whose leases expire this year have expressed their willingness to pay higher rents, the new regulations will force many to close their doors.

**The NEW FARGO TRUCKS**  
*Built to Fit the Job*  
**WILL DO YOUR JOB BETTER!**

**LOOK AT THESE FARGO FEATURES**

- BETTER WEIGHT DISTRIBUTION—with front axle moved back and engine forward, the load is carried more evenly over both axles.
- NEW WHEELBASES and new steering assembly allows smaller turning diameters and easier manoeuvring in confined areas.
- WIDER TREADS on both front and rear axles provide better roadability, greater stability and easier handling.
- COMFORTABLE CABS—wider, higher and deeper. Seats are fully adjustable. Wiper, taller doors makes getting in and out easier from either side.
- LARGER, IMPROVED BRAKES—braking area has been increased as much as 20% for extra safety. These are only a few of the many Engineering Advancements found in the 1949 FARGO trucks.

Remember, you get more than just a truck when you buy a new FARGO. You get a truck that is "Built to FIT the job". See these new FARGO trucks at your nearest Chrysler-Plymouth-Fargo Dealer's. He will show you why these new FARGO trucks are the biggest truck value on the market today.

**FARGO TRUCKS ARE Chrysler-Built IN CANADA**

**It's only Hours to BRITAIN by TCA**
